ISIN: IE00BFM6T921

Exchange Traded Fund (ETF)

## Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the FTSE EPRA/Nareit Developed Dividend + Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed and aims to invest so far as possible and practicable in the equity securities (e.g. shares of listed real estate companies and Real Estate Investment Trusts (REITs)) that make up the Index. REITs are closed-ended investment vehicles that invest in, manage and own, real estate.
- ▶ The Index measures the performance of REITs and real estate holding and development companies from developed countries world-wide which are constituents of the FTSE EPRA/Nareit Developed Index, and pay above average or a high level of income as a dividend. The Index offers exposure to listed real estate companies and Real Estate Investment Trusts (REITs) from developed countries world-wide, and includes those equity securities which have a forecasted yield of equal to, or greater than, 2 %. Companies are included in the Index based on the proportion of their shares in issue that are available for purchase by international investors.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes.
- ▶ The Fund does not hold physical real estate property, but invests indirectly in property-related assets (i.e. the shares of listed real estate companies and REITs).
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for efficient portfolio management purposes (i.e. to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income).
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

\*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

\*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent.
